	Extended Arch

- > An excellent application for high traffic areas
- > Made from durable polysatin compounds – shutters will not warp, fade, crack or discolour from sunlight
- > Water resistant
- > Variable Spacing – computer positioned louvers create equal spacing between louvers
- > New and improved Sigma Catch System™ – standard on all shutters. No more ramp installation, resulting in considerable time saving on installation. Magnets are optional.

- > Environmentally friendly – a GreenProtect™ product – for healthier living
- > Energy efficient
- > Fire retardant
- > Child safety
- > Low maintenance and easy to clean
- > 25 year limited warranty
