### HEALTH CANADA - UPDATE #4

#### January 27, 2022

*As previously communicated, the Corded Window Coverings Regulations (CWCR) came into effect on May 1, 2021 and will be enforced starting May 1, 2022. All products that do not meet the CWCR standard cannot be shipped into Canada after April 30, 2022.*

To meet this mandate, we will transition all affected product lines on April 11, 2022 and will only sell products that meet the new regulations.

We've created a helpful Health Canada FAQ document that is intended to provide you and your team a quick reference tool as questions come up regarding these new regulations. It defines our actions and timing to ensure you are ready for the May 1st date. Please download [here](#) and share it with your team members.
